# Effective Cost Management And Attractive Capital Management Complement Expected Top-line Growth

## Effective cost management

- Three efficiency programs since 2007 compensated inflation and created flexibility to increase investments:
  - 2007-2010: €100 million
  - 2010-2012: €150 million
  - 2013-2016 (ongoing): €70 million
- As a result, business as usual costs have been relatively stable at around €1 billion like-for-like over the last 5 years
- Overall increase of operating costs since 2011 is a result of higher investments in growth and infrastructure, consolidation effects, and more recently the stronger US-Dollar

## Attractive capital management

- ▶ **Capital management**
  - The capital management policy foresees a dividend pay-out ratio of 40 to 60 percent complemented by share buy-backs
  - Both distribution components are subject to capital & rating requirements, investment needs and general liquidity considerations
- ▶ **Strong balance sheet**
  - Gross debt to EBITDA ratio stood at 1.2 in Q1/2015 (2014: 1.5)
  - Solvency ratios in 2014: Clearstream 24% (2013: 26%), Eurex Clearing 28% (2013: 25%)
- ▶ **Strong rating profile**
  - Clearstream: AA (stable)
  - Deutsche Börse AG: AA (stable)
