Installation and set-up

Installation

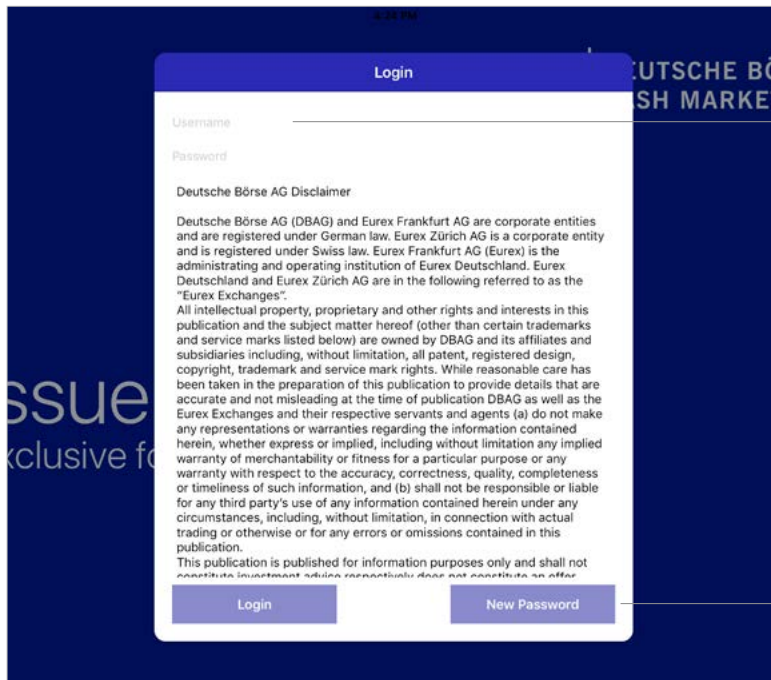

Go to the Apple App Store or Google Play Store and search for “Issuer Data Service”. Click on “Download” to load the app to your tablet or smartphone. Once the download is complete, the “Issuer Data” icon will appear on your home screen. Clicking on this icon will open the app.

Registration

Please ask the responsible administrator at your company to register you for the app first. You will then receive an e-mail with your username for logging in. If you are not sure who your administrator is, please contact issuerdata@deutsche-boerse.com.

Account activation and password request

Before logging in for the first time, you need to request a password. To do this, enter the username you received from your administrator and select “New password”. You will be asked to enter your username again in the next window. Please enter it in the corresponding box and click on “Request”. A confirmation e-mail will be sent to your registered e-mail address within a few minutes with a link to activate your account. Open the link and enter your preferred password. Then click on “Change password”. Your account is now active, and you can sign in to the app by entering your username and password in the app’s log-in window.

To register, enter your username and password. Then click on “Register”.

Click on “New password” to activate your account or to request a new password.

Overview screen

Additional information and explanations of terminology and illustrations

Detailed information, master data and key data on your share

You can navigate between the different areas of the app using the symbols in the toolbar.

Toolbar functions

Detailed information: real-time prices and the indices allocated to your share on the trading venues Xetra® and Börse Frankfurt

Digital Stock Report: price and sales figures, analytical key data on share performance, price performance compared to the selected peer group and allocated indices, and information on liquidity in trading

Top investors: your top ten investors, provided by Factset
