Sovereignty is the freedom of choice:

From compliance to competitive advantage

Fabian Klose

SVP T Cloud Sales,
T-Systems International

Dr Hauke Hansen

Partner, FPS Law

Related risks are no longer theoretical anymore. They become reality every day

” The EU **relies on foreign countries** for over **80% of critical technologies**. This creates **fundamental risks**.

Mario Draghi
Former EZB president

Comment on the total outage at AWS: Learned nothing in the last 30 years

"The event was nothing less than a foretaste of the disaster that threatens Europe if services from AWS, Azure or Google become even more of a political football than they already are."
